

Polybag warning

In case of using plastic bag as (part of) packaging there are some restrictions.

- The circumference may be maximum of 380MM (38cm)
- Plastic material must have a thickness of 0.038MM

When bigger than 380MM you must:

- Perforate the plastic with holes
- When bigger than 380MM you must add the below warning on plastic bag.

If the circumference of the plastic bag is smaller than 380MM then no warning is needed.
